## Prerequisite Check

Before you proceed any further, it's vital to confirm that you've successfully completed the setup for your front-end, back-end, and database according to the instructions outlined in the README.md file. If you haven't done so yet, please revisit the README.md and ensure those setup tasks are completed.

Introduction

Welcome to HOPLA Notes, a technical assessment document dedicated to evaluating and assessing your skills. HOPLA Notes is a streamlined web application designed for the creation and organization of notes. This assessment will challenge you with a series of tasks directly related to HOPLA Notes, providing you with the opportunity to showcase your technical proficiency and expertise.

To proceed with the technical assessment, please create an account in HOPLA Notes

1. In HOPLA Notes, click the **Create an account** button

2. You will be redirected to the **Register** page. Provide your **Email** and **Password** and click the **Register** button

3.

3. Go back to the **Login** page and type in your registered **Email** and **Password**. Upon successful login, you will be redirected to the **Home** page

Back-end Task #1 – Implement Add note functionality

1. Click the **Add a note** button to access the **Add note form**

Add Note Form

Name
Title
Description

Submit Note

2. Implement a functionality that would create a new note when the **Submit Note** button is clicked. The newly added note should appear when you click the **View notes** button

Newly added note should appear in this page
